

## DURHAM REGION ASSOCIATION OF REALTORS®

# Housing Report

February 2013

### Durham Real Estate Proves to be a Good Investment

**DURHAM REGION, March 8, 2013** – There were 751 re-sale homes sold in February according to the Durham Region Association of REALTORS® (DRAR). Sales have increased 47% since January, but fallen 11% when compared to February of last year.

"The average price of a home in the region continues to climb making real estate in the Region a great investment," commented Ian Smith, President of the Durham Region Association of REALTORS®. The average selling price in February was \$353,114 up almost 6% from January and 7% compared to this time last year. "I think these changes are the result of supply and demand. There continues to be a relatively low inventory of houses on the market," explained President Smith. "However, in February we saw more people starting to list their homes. New listings for the month were up 9% over last month and active listings have also increased by almost 7%. I think we'll see this trend continue into spring," added Smith.

"Overall, the February figures suggest that the market may be heating up a little slower than usual but with the possibility of decreasing mortgage rates on the horizon after the Bank of Montreal's announcement this week, I think we're in for a busy spring and summer," said President Smith.

## OVERVIEW

The Durham MLS® Statistics provided are compiled by the Durham Region Association of REALTORS® and are based on total home sales. The statistics reflect selling prices for various property types within the Durham Region. These statistics are for information purposes only.

LEGEND	
TA	Total Active (at the end of the last day of the month)
YTD	Year to Date (accumulation of new data to date)
PYTD	Past Year to Date (accumulation of new data to date for previous year)
%+/-	Year Over Year Percentage Differential
Avg. DOM	Average number of days on the market for firm transactions between the first & last days of the month
AVG. SP/LP	Ratio of the average selling price to the average listing price for firm transactions between the first & last days of the month
MOI	Months of Inventory (how long in months it would take to completely sell the avg. number of active listings). Calculated using a 12 month moving average (active listings/sales).

2011	9,806	317,024
2012	10,549	335,991

## NOTES:

Sales, dollar volume, average sale prices and median sale prices are based on firm transactions into the MLS® system between the first and last day of the month/period being reported.

Average Price is calculated by dividing the dollar volume by the number of sales.

Median represents the middle number in the ranking of homes sold from lowest to highest price.

As of July 2011 Durham Region statistics figures include the municipalities of Uxbridge and Brock.

Due to changes to service areas, caution should be exercised when making historical comparisons.

Past monthly and Year-to-Date figures are revised on a monthly basis.

All statistical information obtained from the Toronto Real Estate Board's Market Watch

Mos. Inv. is Months of Inventory (how long in months it would take to completely sell the avg. number of active listings). Calculated using a 12 month moving average (active listings/sales).
